Editors Column

Did you ever get the feeling your running as fast as you can but can't get no where. March is over but the madness is not. Still scheduling three things because of this great northwestern Ohio weather. Doing the work 2 times instead of once. My great printer is going bad so I hope you all can read this. I tell you after March I will be glad to get to April for some great weather. OK maybe just some riding weather. There are lots of things to do for the up coming season. Hope you all have a bag packed to take some weekend trips. It is good to be prepared so that if you are lucky enough to have a weekend off you can take that bike and leave as soon as you get home on Friday. This time of year if your camping hope you have your heaters it can get cold at night. There are places to go for just a day too. Find those favorite rides this year check out some new campsites for the spring campout. Maybe find some great new places for the club to meet. Hopefully we will get the club together for some planned rides this season.

The spring campout is only a month and a half away .Can you be there. The new location

not far from Indiana. Have you checked out places to ride or possible suggestions to recommend for visitors. Think about it.

Be safe this season by checking your bike over well before you begin the season. Do you need new tires, when's the last time you changed you battery. Are all your lights working. How's your fluid levels. Are you visible going down the road. Check your tire pressure. Do you have all the proper gear onboard in case of a weather change. Hope you all are prepared. Have a safe riding season.
